Re. Scarcity of Drinking water in Kanakatte Village.

Sri H. S. SIDDAPPA (Arsikere).— I call the attention of the Minister for Community Development and Social Welfare to the Scarcity of drinking water and about a well where people are dieing.

Sri M. MALLIKARJUNASWAMY (Minister for Community Development and Social Welfare).— The latter portion is not there in the Calling Attention matter sent by the Hon. Member. Anyway I will make the following Statement:

Kanakatte village in Arasikere taluk, has 3 Drinking Water Wells at present and the villagers are using water from these 3 wells. Another Drinking water well was sanctioned during the year 72-73 in the Southern extension of the village at an estimated cost of Rs. 9,990/-. The outlay incurred on this well so far is Rs. 2,850/- and the well has been sunk upto a depth of 12 metres. Sufficient water is also stated to have been tapped. Steining and the parapet have got to be constructed. Since the Contractor abandoned the work 3 months ago, a separate Contractor has been entrusted with the remaining portion of the work. The Deputy Commissioner has reported that the Drinking Water Well would be got completed within 2 months. It has also been reported that no cattle or animals have fallen in this well. The Chairman of the V.P.Kanakatte has been requested to arrange for proper fencing till the completion of the well.

National Rural Water Supply Scheme to this village has also been sanctioned for Rs. 81,000/- during 67-68, but the work could not be taken up for execution since the panchayat did not pay the 10% contribution till August 1972.

Tenders were invited by the Executive Engineer on 28-9-72. 3 Bore wells have been sunk out of which one well has failed. Construction of pump houses over the successful bore wells has been completed. The work of construction of RCC overhead tank of 25,000 litres capacity has been entrested to a Contractor and sufficient materials have been collected. An expenditure of Rs. 38,990/- has so far been incurred on the scheme. There was also a dispute with regard to handing over the site for the construction of RCC overhead tank. The V. P. has since given consent in writing on 16-9-73 for handing over possition of the land required to the PHE Department. The Dy. Commissioner has stated that he would take necessary action to see that the site is handed over by the Panchayat to the PHE Department and would pursue till the completion of the work.

Kanakatte village is however free from water scarcity.

Re:Non filling of Posts of teachers in High Schools of Hassan District

Sri K. H. HANUME GOWDA.—I call the attention of the Minister for Education to the Non-filling of posts of teachers in High Schools of Hassan District.

Sri A. R. BADARINARAYAN (Minister for Education).—This may require some detailed information about 100 Schools. I have not got full information about all these Schools. Therefore, I may be permitted to have 3 days time for collection of the details.

(iii) Re: Non-appointment of Kannadigas in the Institute of Management, Bangalore.

Sri H. S. SIDDAPPA.—I call the attention of the Minister for labour to the non-appointment of Kannadigas in the Indian Institute of Management, Bangalore.

Sri A. R. BADARINARAYANA.—On behalf of the Minister for Labour, I read the following statement.

The Indian Institute of Management is the third Management Institute in the Country, the first two being at Ahmedabad and Calcutta established a decade ago. As the Central Government were contemplating to start two more such Institutes- one in the Northern Region and the other in the Southern Region, the State Government pursuaded the Government of India for location of the Institute meant for the Southern Region at Bangalore.

The Indian Institute of Management at Bangalore is a Central Institute, the expenditure on which will be borne entirely by the Central Government. However, in con-

sideration of its location at Bangalore, State Government have agreed to grant 100 acres of land free of cost out of the lands available with the Bangalore University in its new Campus and to the payment of grant aggregating to Rs. 30 lakhs for the initial establishment and development of the Institute. A grant of Rs. 10 lakhs has been released to the Institute so far. The responsibility for the establishment, administration and management of the Institute vests with a Society Registered under the Mysore Societies Registration Act, 1960. The Society was registered at Bangalore on 27-3-1972. The day-to-day administration of the Society vests in the Governing Body of the Society which is called the Board of Governors. The Board of Governors consists of members representing business, industry, professions and trade Unions as well as Central and State Government nominees. Sri T. A. Pai, Union Cabinet Minister is the Chairman of the first Member of the Governing Body of the Society. The Development Commissioner, the Financial Commissioner and the Commissioner of Education are the State Government nominees on the Governing Body which consists of 18 members. The other members from Mysore State on the Board of Governors are Sri K. Pandrunga Setty, Technical Director, Sri Krishna Flour Mills, Bangalore, Dr. S. M. Patil, Chairman and Managing Director, H. M. T. Ltd., Bangalore Dr. H. Narasimiah, Vice-Chancellor, Bangalore University, Bangalore, Professor V.K.R.V. Rao, M.P. and Sri A. Krishnamurthy, Jayanagar, Bangalore. The State has thus been able to get adequate representation to the Mysore Government as well as persons from Mysore State. The interests of the State are thus well protected by the fact that the structure of the Board takes care of our interests.

Under Rule 12 (ix) of the Rules of the Society, Board of Governors have powers to create teaching administrative, technical, ministrial and other posts in the Institute other than the post of Director and to make appointments thereto provided that the posts created are in the cadre and scales of pay as approved by the Central Government from time to time. The appointment to the post of the Director

shall be made by the Board according to such procedure and on such terms and conditions as may be decided by the Central Government.

Thus appointments to the posts in the Institute are within the exclusive Jurisdiction of the Board of Governors. It was in this context, that the State Government had to withdraw the stay order issued to the Institute in connection with certain appointments proposed to be made by it.

Being a National Institute established by the Government of India through the Ministry of Education, all policies of recruitment and programmes and other activities of the Institute will be national in character. It would adopt a national policy with regard to the recruitment to the faculty and senior administrative positions, as well as selection to the academic programmes. The Institute is an autonomous body registered under the Societies Act and is administered by a Board of Governors.

Management Education is relatively a recent development in India. Since facilities for advance Management Education is still not developed adequately, there is great deal of difficulty in obtaining suitable candidates for Faculty positions. Faculty trained abroad are able to get excellant job opportunity both in the private sector and in Governmental agencies. Consequently, there is a severe shortage of Management teachers in India. The situation at present is not one of too many qualified candidates seeking too few opportunities, but is one of the Institutes of Management and related bodies competing to get suitable candidates.

Faculty and other Senior positions are extensively advertised in the National News papers.

Besides, they are published in the bulletins issued by the Indian Missions abroad, particularly in USA, Canada and U. K. Over 500 applications have been received. All these have been categorised and analysed by the Director of the

Institute and list prepared giving details of he candidate's qualifications and experience. These lists are provided to the Members of the Selection Committee.

Selection is done by a Selection Committee, nominated by the Board. Members of the pr sent selection Committee are–

1.	Dr. L. S. Chandrakant, Director, Institute of Applied Manpower Research, New Delhi.	Chairman.
2.	Sri M. K. Panduranga Setty, Technical Director, Krishna Flour Mill, Bangalore.	Member.
3.	Dr. S. M. Patil, Chairman, H. M. T., Ltd., Bangalore.	-do-

8.	Dr. L. S. Kanodia, General Manager, Datamatics Corpn., Ltd., Bombay.	Expert.
9.	Dr. S. K. Parukh Beam Services, Bombay.	Expert.

In April and May last, the Selection Committee recommended candidatures of 32 candidates for 20 positions. Of these, only 3 have joined so far. About 6 are likely to join by the end of this year. 8 have declined and the Director is negotiating with the rest.
